simplified management,  
smarter operations

## Trusted Partners to

One Partner. One Phone Call.

| Charger Type                           | Ideal For                                                     | Power Output     |
|----------------------------------------|---------------------------------------------------------------|------------------|
| Level 2 Pedestal                       | Overnight charging for light-duty shared-use or city vehicles | 11–19 kW (AC)    |
| DC Fast Charger (Single Port)          | Shift-based medium-duty fleets, top-off during day            | 60–90 kW (DC)    |
| DC Fast Charger (Multi-Port / Modular) | High-throughput depots with multiple duty cycles              | 120–180+ kW (DC) |

## Camber Core™

Your digital command center

- ✓ Live system status
- ✓ Smart load scheduling
- ✓ Alerts + analytics

## Camber Correct™

Fast, no-fuss issue resolution

- ✓ QR scan to report
- ✓ Instant diagnostics
- ✓ No app required

## Camber Complete™

End-to-end service + support

- ✓ Full install + setup
- ✓ Tiered uptime plans
- ✓ Ongoing maintenance

## Unlock Public Funding Opportunities

Tap into federal, state, and utility incentives to reduce upfront costs

Navigate programs like IRA, NEVI, and state climate funds

Build a data-backed plan aligned with grant and reporting requirements

From city streets to civic services, your work keeps the community going. Camber helps you electrify with confidence—so you can stay focused on your mission, knowing your fleet is powered, supported, and ready for whatever the day demands.

*It's not just charging. It's peace of mind, powered by partnership.*

Ready to move forward?  
Let's build what's next—together.
